

mobilecarts.mobilebase.MobileBase

```
graph LR; A[mobilecarts.configs.diffdrives.DiffDrive_2Wheels] --> B[mobilecarts.mobilebase.MobileBase]; C[mobilecarts.configs.diffdrives.DiffDrive_4Wheels] --> B;
```

The diagram illustrates a class hierarchy. On the left, a grey arrow-shaped box labeled 'mobilecarts.mobilebase.MobileBase' represents the base class. On the right, two white rectangular boxes represent subclasses: 'mobilecarts.configs.diffdrives.DiffDrive\_2Wheels' (top) and 'mobilecarts.configs.diffdrives.DiffDrive\_4Wheels' (bottom). Blue arrows point from each subclass box to the base class box, indicating inheritance.
